# CAUTION RISK OF ELECTRIC SHOCK

DO NOT OPEN!

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of un-insulated dangerous voltage within the products enclosure that may be of sufficient magnitude to constitute a risk of electric to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instruction the literature accompanying the appliance.

CAUTION: USE OF ANY CONTROLS, ADJUSTMENTS, OR PROCEDURES OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE.

CAUTION: These servicing instructions are for use by qualified service personnel only. To reduce the risk of electric shock, do not perform any servicing other than that contained in the operating instructions unless you are qualified to do so.

Refer to service manual for servicing instructions.

# Important Safety Instructions

### Note:

- 1.Read these instructions.
- 2.Keep these instructions.
- 3.Heed all warnings.
- 4.Follow all instructions.
- 5.Do not use near water.
- 6.Clean only with dry cloth.
- 7.Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- 8.Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- 9.Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.

- 10.Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 11. Only use attachments / accessories specified by the manufacturer.
- 12.Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart / apparatus combination to avoid injury from tip-over.

13.Unplug this apparatus during lightning storms or when unused for long periods of time.

- 14.Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- 15.Apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.
- 16.WARNING:To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.
- 17.Mains plug or appliance coupler is used as the disconnect device, shall be readily operable.
- 18. The apparatus shall be connected to a MAINS socket outlet with a protective earthing connection.
- 19.WARNING: The batteries shall not be exposed to excessive heat such as sunshine, fire or the like.
- 20.The ON-MODE Power under Home Mode should be less than 91.6 W.
- 21. The Sleep Mode power should be less than 0.5 W.
- 22. 
  This equipment is a Class II or double insulated electrical appliance. It has been designed in such a way that it does not require a safety connection to electrical earth.

This Westinghouse product has earned the Energy Star<sup>®</sup> for meeting U.S. Federal energy efficiency guidelines as set by the Department of Energy and Environmental Protection agency. The Energy Star<sup>®</sup> program exists to provide energy saving guidelines and help promote energy efficient products and practices. Changes to certain features, settings and functions of this TV can change and/or increase its power consumption. Depending on how settings are changed, power consumption may exceed the limits required for Energy Star<sup>®</sup> qualification. This Westinghouse TV will operate at optimal energy efficiency in "Home" mode.

#### Licensing and PatentInformation

This WESTINGHOUSE productmay be covered by one ormore U.S. and foreign patents and patent applications. See http://westinghousedigital.com/compliance/ for details.

3

# How to install the stand!

Follow instructions below to install the base of the TV, reverse the instructions to remove the base.

4

### 3. PREFACE

Thank you for buying this TV! Please read this manual thoroughly before operating the TV. Make sure the TV was not damaged in transit. Should the TV be damaged, do not install it and contact your dealer. Check that you have all the accessories according to the model.

### 4. SAFETY PRECAUTIONS

Put the TV on a stable surface.

Do not place any material on the TV.

Do not use the TV with fixtures other than those provided or suggested by the manufacturer.

Do not block or cover the ventilation openings on the TV. If you have a wall mount, check that it is steady.

Power cord and cables must be properly routed and protected to prevent people from stepping on them and causing the TV to fall.

### SAFETY PRECAUTIONS

Keep the TV dry and away from humidity.

Keep the TV away from heat sources.

Unplug the TV before cleaning it. Do not use solvent or liquid to clean the TV.

Only clean the TV with a soft and dry cloth.

In case of troubleshooting, do not use spare parts other than those suggested by the manufacturer. Using inadequate spare parts can lead to electric shocks, short-circuits, fire or other incidents.

Unplug the TV during lightning storms or when unused for long periods of time.

## 5. CONTENTS

7

### FRONT/BACK CONNECTIONS OF LED TV

## 7. TV INSTALLATION

## Power Cord Connection

- Connect the power cord correctly as shown.

**Antenna Connection** 

To ensure good picture and sound, TV antenna system needs to be installed. The antenna system as shown can be sourced from TV equipment shops, which will provide service for correct installation and connection. After installation, insert the 75-ohm antenna plug into the antenna jack as shown.

English

### **AV Connection**

Connect the VIDEO and AUDIO output jack of the DVD or VCR to the VIDEO jacks on the set using the RCA cable. Match the jack colors: Video is yellow, Audio left is white, and Audio right is red. Select the AV input source using the SOURCE button on the remote control.

### YPbPr (Component) Connection

Connect the YPbPr output of the DVD or VCR to the YPbPr input on the set. The picture quality is improved; compared to connecting a regular VCR to the video input. Connect the Audio output of the DVD or VCR to the Audio input jacks on the set using the RCA cable.

Match the jacks colors :Y is green,Pb is blue,Pr is red, Audio left is white,and Audio right is red. Select component input source using the SOURCE button on the remote control.

English

# **HDMI** Connection

HDMI plug which replaces the HDMI connection allows transfer of all audio/video control signals through one cable only. These signals are transferred in digital.

### **Remote control setup**

- 1. Open the cover.
- Uses AAA size batteries. When inserting the batteries, make sure correct polarities "+"and "-" marks on the batteries line up correctly with compartment markings.
- 3. Replace the battery cover.

#### To prevent battery leakage which may result in bodily injury or damage to the remote:

- 1. Install all batteries correctly, and as marked on the remote control.
- Do not mix batteries:(OLD and NEW or CARBON and ALKALINE, etc) Remove batteries when the remote is not used for a long period of time.

### 9.Menu Operation
